

## MCV Modular Check Valves

### How to order

| MCV    | 02                                 | P                                                               | 2                                                                                                                |
|--------|------------------------------------|-----------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| Series | Valve size<br>02<br>03<br>04<br>06 | Action form<br>P: P port<br>A: A port<br>B: B port<br>T: T port | Opening pressure<br>1: 0.5(kgf/cm <sup>2</sup> )<br>2: 3.5(kgf/cm <sup>2</sup> )<br>3: 5.0(kgf/cm <sup>2</sup> ) |

### Symbol

### Specification

| Model           | Rated pressure<br>(kg/cm <sup>2</sup> ) | Opening pressure<br>(kg/cm <sup>2</sup> ) | Max.flow<br>(L/min) | Weight<br>(kg) |
|-----------------|-----------------------------------------|-------------------------------------------|---------------------|----------------|
| MCV-02P MCV-02A | 350                                     | 1: 0.5<br>2: 3.5<br>3: 5.0                | 02:40               | 1.0            |
| MCV-02B MCV-02T |                                         |                                           | 03:80               | 2.0            |
| MCV-03P MCV-03A |                                         |                                           |                     |                |
| MCV-03B MCV-03T |                                         |                                           | 04:300              | 5.5            |
| MCV-04P MCV-04A |                                         |                                           |                     |                |
| MCV-04B MCV-04T |                                         |                                           | 06:500              | 11.6           |
| MCV-06P MCV-06A |                                         |                                           |                     |                |
| MCV-06B MCV-06T |                                         |                                           |                     |                |
